Attachments: [2008 EPA Vehicle Emission Control Label - 26MAR2007.pdf](#)

My apologies Steve. In the original attachment the top image was an internal image for filling out the label, the actual label is the smaller of the two images. I am resending the label image only (it is from a fax, so please excuse the resolution).

Thanks and best regards,

-Rich

There appear to be 2 label proposals. Which is intended for production?

2008 Cummins Vehicle Emission
Control Label for Dodge Ram

Linc / Steve / Emily,

We are in process of working with DaimlerChrysler in preparing for MY2008 chassis-certification of the diesel Dodge Ram. Part of that process is verification of the vehicle engine label. I've attached the proposed 2008 label and would like to confirm your approval. Please let me know.

Many Thanks,

-Rich
